US-09-918-995-1667

Sequence 1667, Application US/09918995

Publication No. US20030073623A1

GENERAL IMPORMATION:
APELICANT: Hyeeq, Inc.

TITLE OF INVENTION: NOVEL NUCLEIC ACID SEQUENCES OBTAINED

ITTLE OF INVENTION: FROM VARIOUS CDNA LIBRARIES

PILE REPEXENCE: 20411-756

CURRENT APPLICATION NUMBER: US/09/918.995

CURRENT APPLICATION NUMBER: US/09/918.995

CURRENT APPLICATION NUMBER: US/09/235,076

PRIOR APPLICATION NUMBER: US/09/235,076

PRIOR FILING DATE: 199-01-20

NUMBER OF SEQ ID NOS: 38054

SECTIMARE: FastSEQ for Windows Version 3.0

LENGTHAR: FastSEQ for Windows Version 3.0

LENGTH: 477

Sequence 31166, Application US/09918995

Publication No. US2030073623A1

GENERAL INFORMATION:

APPLICANT: HYSEG, Inc.

TITLE OF INVENTION: NOVEL NUCLEIC ACID SEQUENCES OBTAINED

TITLE OF INVENTION: NOVEL NUCLEIC ACID SEQUENCES

PILE REFERENCE: 20411-756

CURRENT APPLICATION NUMBER: US/09/918,995

CURRENT FILING DATE: 2001-07-30

PRIOR APPLICATION NUMBER: US/09/235,076

PRIOR PILING DATE: 199-01-07

INUMBER OF SEQ ID NOS: 38054

SEQ ID NO 31166

LENGTH: 484

TYPE: DNA

I ORGANISM: Homo sapiens
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        S
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               b
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             S
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      밁
